

Chatbots: discovery, engagement and beyond!

Sean Stephenson

@PixarSystems

A photograph of a server room with multiple rows of server racks. The racks are filled with server units, and many of the units have small, glowing lights. The lights are primarily blue and yellow, with a few red lights visible. The perspective is from a low angle, looking down the length of the server aisle, creating a sense of depth. The floor is dark and reflective, showing the lights from the racks.
